4 cyl vs 3 cyl diesel I'm looking at buying a tractor in the 30hp range. I've noticed that the Kubota B2910 has a 4 cyl. diesel when the New Holland and the Deere have only 3 cyl. engines!! Is this a big issue that I should pay attention to?? Does the 4 cyl. have more torque than the 3 cyl.?? They never show torque specs in their brochures.

I have a massey ferguson tractor with a 3 cylinder perkins diesel engine. Everything was fine until I changed the fuel filter and then I finally got it started. After I got it started. it began to pump oil out of the vent on bottom of engine. It was not doing this when it quit. Do I have a stopped up line somewhere or is there something else wrong.

Finding TDC on a 3 cylinder diesel is easy peasy. Now I know nothing about this specific engine but on my two 3cylinder Yanmar diesels there is a little rubber plug on the flywheel housing you pull that out and then you look for the timing marks on the flywheel then you line up the #1 cylinder timing mark with the mark on the flywheel housing.

Ford Tractor Prep Engine Before Installing Fuel Injectors Part 7

Best I can tell the tractor is all original and no major surgery. Good tractor. I had to overhaul the 3 cyl but that wasn't the tractor's fault. PO abused the heck out of that machine. Edit: On bone yard picking, you need to know if the engine is out of the same tractor since the cubic inches and HP of the 4 cyl 2000 and 4 cyl 4000 are different.
