Information is the resolution of uncertainty; it is that which answers the question of "what an entity is" and thus defines both its essence and nature of its characteristics. Information relates to both data and knowledge, as data is meaningful information representing values attributed to parameters, and knowledge signifies understanding of a concept.

Those of you who play our puzzles may already know of "asmit" as the name at the top of many of our leader boards. Asmit, real name Arian Smit, clearly knows a thing or two about Scrabble, and he's been investigating a question for us that many players have pondered: "What is the highest possible scoring Scrabble move?"
