

Engineering Labs

Engineering Labs

At Consolidated Engineering Laboratories (CEL) we consider ourselves more than a Testing Laboratory. With our depth of in-house resources and staffed with the finest Materials Engineers and fully certified field and laboratory staff, CEL can provide all your engineering and quality assurance needs for any size project.

Consolidated Engineering Laboratories > Home

MyLab Engineering is the teaching and learning platform that empowers you to reach every student. When combined with educational content written by respected scholars across the curriculum, MyLab Engineering helps deliver the learning outcomes that students and instructors aspire to. Learn more about how MyLab Engineering helps students succeed.

MyLab Engineering | Pearson

Our departments also have their own discipline-specific labs for bioengineering, civil engineering, computer engineering, electrical engineering, and mechanical engineering, and our Engineering Computing Center provides six computer labs for student use. Center for Nanostructures.

Labs - School of Engineering - Santa Clara University

Engineering Laboratories, Inc. has remained a family owned and operated business throughout its 80+ years. For four generations, we have been continuously working to develop and perfect our unique and innovative manufacturing processes. » Learn more about Engineering Laboratories.
