The main controller board is the brains of the refrigerator so it can cause a number of issues if it is defective. If your GE refrigerator is not cooling consistently but the lights inside work then it is likely a main controller board problem.. Some customers complain that it'll cool sporadically and some not at all.

Recently my water dispenser simply quit working on my General Electric side-by-side refrigerator. We've had the GE refrigerator for roughly 5 years and never had this issue. The ice maker was still making ice so I knew it was still receiving water. The ice dispenser worked fine when tried to dispense water, I heard a click [...]
