These vibrant oil and water discovery bottles contain no lamp oil, using all edible ingredients. This makes them a safe science activity for preschoolers to make on their own!

Two Color Oil and Water Discovery Bottles - Play Trains!

Most hydronic-based renewable energy heat sources require a thermal storage tank. Examples include systems using solar thermal collectors, biomass boilers and in some cases applications using heat pumps. The latter is common when a geothermal heat pump or air-to-water heat pump with a fixed-speed compressor is combined with a zoned hydronic distribution system.

Different ways to pipe a thermal storage tank - PM Engineer
