Engines are one of 40 different exchange parts Volvo Trucks offers its customers and take the longest to remanufacture. "It takes around 57 hours from the moment the engine is brought into the plant until it has been tested and painted," explains Lars Färnskog, plant manager in Flen. The remanufacturing process begins with dismantling.

The Volvo B21 is a slant straight-four engine first used in the Volvo 200 series, meant to replace the B20. The B21 and all derived engines are often referred to as red block engines for the red paint applied to the block. The primary differences when compared to the B20 was the switch to a SOHC in place of the older pushrod configuration, and an aluminum crossflow cylinder head versus the iron ...
